

2026 NICARAGUA EXPORTA

Exhibitor Catalog

Welcome to the II Nicaragua Exporta Forum: “Quality Products for the World,” a platform bringing together Nicaraguan companies committed to quality, innovation, and the creation of new opportunities in international markets.

This catalog features the exhibitors participating in the Trade Fair, organized as a meeting point between Nicaragua’s domestic productive supply and buyers, strategic partners, and investors from different markets. Its pages present a selection of companies representing various productive sectors, offering products and services that reflect Nicaragua’s ability to compete, add value, and meet the demands of international markets.

This export catalog was designed as a tool to provide readers with a brief overview of the participating companies in the “Nicaragua Exporta 2026” Forum, including contact information, products offered, and a summary of their backgrounds, making it easier for international buyers to identify and select Nicaraguan suppliers.

This catalog serves as a resource for exploring Nicaragua’s exportable supply and establishing business relationships that contribute to expanding the presence of Nicaraguan products around the world.

Each company represents a story of hard work, innovation, and forward-looking vision. Together, they reflect Nicaragua’s potential to continue growing as a production and export hub serving international markets.

We invite you to explore our exportable supply, identify opportunities, and connect with Nicaragua.

PRODUCTOS PARA LA EXPORTACIÓN S.A. (PROEXPORTS S.A.), is a Nicaraguan company founded in 2015 in Estelí, with 11 years of experience working hand in hand with cooperatives, associations and coffee producers, facilitating the commercialization of its offer and access to international markets.

Its specialty is the commercialization of coffee and comprehensive management of export logistics, providing commercial management services, market intelligence, logistics coordination and quality control for conventional, special, certified and differentiated coffees.

Through R&R Coffee Roaster, it strengthens its presence in the national market through the sale of green and roasted coffee, supply of green coffee to coffee shops, roasting services and profile development, cupping and packaging. This initiative seeks to bring a diverse supply of Nicaraguan coffees to the local market and contribute to the consumption and appreciation of high-quality national coffee.

International markets: Europe, North America, Oceania and the Middle East, including the United States, Canada, Germany, Belgium, the United Kingdom, France, Italy, Spain, Portugal, Ireland, Sweden, Greece, Lithuania, Australia, New Zealand and Oman.

	https://www.ritter-sport.com/		Cocoa beans

Ritter Sport Nicaragua, S.A., develops its operations in the country, dedicating itself to the responsible cultivation and supply of cocoa for export to the chocolate factory of the Alfred Ritter company in Germany.

The business commitment goes beyond the production and export of cocoa: Ritter Sport Nicaragua actively contributes to the development and strengthening of Nicaraguan cocoa culture, promoting a sustainable, responsible supply chain prepared for the challenges of the future.

Together with the 19 cocoa-supplying cooperatives and more than 3,000 producers linked to them, it contributes to the development of the sector by investing in the sustainability program, aimed at strengthening the capacities of cooperatives and producers who are part of their supply chain, as well as the development of their cocoa plantations to boost production.

Sustainability is an integral part of its vision, seeking a balance between people, production and nature. At its Finca El Cacao operation, 1,560 of the 2,600 hectares are destined for forest conservation and biodiversity as part of the protection of natural resources and the future of cocoa. It also focuses on strengthening traceability and compliance with the requirements applicable to the European market.

MLR FORESTAL, S.A.

	(505) 2298-5300		(505) 8700-8224

MARISCO CENTRAL Y AMERICA DEL SUR, SOCIEDAD ANÓNIMA

Founded in 2009, the company is engaged in the fishing and processing of jellyfish and sea cucumbers into dry and frozen products.

While ensuring the capture and processing of raw materials, the company maintains close business relationships with wholesalers of jellyfish and sea cucumbers in regions such as Southeast Asia and the Americas. In addition, it has strong business competitiveness in procurement, which allows it to fully meet the demand for products such as jellyfish and brined sea cucumbers in different markets, sectors and consumer segments.

Export markets:

United States, Canada, Australia, China, South Korea, Hong Kong, Malaysia, Macau, Vietnam and Thailand.

CARIBBEAN BLUE, S.A.

	Allan Noel Hernandez Hernandez and/or Davis Elridge Berger Campbell		(505)86615755 (505)89458908
	Neighborhood. Loma Fresca, from the entrance to the Hotel Casa Rosa 50 meters south.		allan.hernandez@caribbeanblue.com.ni / davis.berger@caribbeanblue.com.ni
	-		Canned pasteurized crab meat

History and Evolution

Founded in 2012, Caribbean Blue, S.A. began operations with a crab collection center in Bluefields, Autonomous Region of the South Caribbean Coast, and a crab meat processing plant located in Nagarote, León.

As part of its growth strategy and commitment to the development of productive activity on the South Caribbean Coast, in 2020 the company moved its processing operations to its plant located in Bluefields, strengthening its presence and operational capacity in the region.

Currently, Caribbean Blue, S.A. operates its processing plant in Bluefields and has five collection centers strategically distributed on the South Caribbean Coast, consolidating an integrated operation from the reception of raw materials to their processing.

Operations & Production

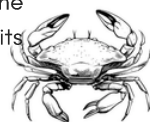

Caribbean Blue, S.A. generates approximately 250 direct jobs linked to its collection, processing, packaging and pasteurization operations, actively contributing to the generation of employment on the South Caribbean Coast. Additionally, the company generates about 150 indirect jobs for artisanal fishermen in the region, strengthening economic opportunities and the development of local communities.

Annually, the company processes around 1.5 million pounds of crab meat, marketed in seven different presentations, under quality and safety standards oriented to the export market.

Markets and Exports

Caribbean Blue, S.A. allocates 100% of its production to the international market, contributing to the strengthening of Nicaraguan exports and the positioning of fishery products from the South Caribbean Coast in high-value markets.

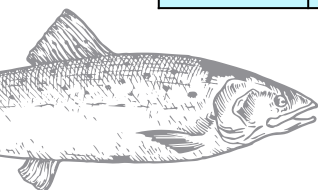

Its production is mainly marketed in North America, generating added value to the national raw material and contributing to the economic and productive activity of the communities linked to its supply chain. II

PASENIC, S.A.

Aceitera El Real, S.A.

Leading the vegetable oil industry and distribution in Nicaragua.

History and Evolution

Founded in 1999 by a group of visionary Nicaraguan investors, Aceitera El Real, S.A., began its operations extracting peanut oil for export. In its beginnings, the company had 37 employees; today, more than 500 employees are part of this organization, contributing to the economic development of the nation.

In the development of its operations, the company expanded its business to oil refining.

Business Units

- **Vegetable Oils and Fats:** Specialized in the production and refinement of oils of vegetable origin, these products are marketed both in the local market and in international markets.
- **Distribution of Consumer Products:** Its distribution network sells mass consumption products produced by prominent companies that have granted their distribution in Nicaragua.
- **Balanced Feed:** Another of the areas of operation is the production of balanced feed.

CUKRA INDUSTRIAL, S.A.

A leading Nicaraguan company in the peanut industry, dedicated to the collection, processing and export of high quality products.

History and Evolution

Founded more than 50 years ago by Chiquita Brands, CUKRA Industrial, S.A. was acquired in April-May 1997 by four major producers, consolidating itself as one of the leading peanut industries in Central America.

Products & Services

CUKRA specializes in the collection, processing and marketing of gold and bleached peanuts and peanut snacks, complying with the highest standards of quality, safety and legality to meet the demands of the international market.

Markets and Exports

The company exports its products to various regions, including North America, Central America and the Caribbean, Europe, Africa and Asia, handling between 25% and 30% of the national production and export of peanuts in Nicaragua.

INDUCARIBE

A company dedicated to the extraction and manufacture of oils, fats and derivatives of oil palm.

Caring for the environment

As part of its commitment to the environment, INDUCARIBE has implemented various initiatives aimed at reducing its environmental impacts. Among them, the use of biogas generated during the treatment of industrial process effluents stands out, with an average production of 8,600 m³ of biogas per day. This biogas is used by a Jenbacher generator to produce 1.96 million kWh of electricity per year. Likewise, this initiative allows the displacement of approximately 580,467 liters of diesel annually and avoids the emission of 3,629 tCO₂e per year, contributing to the reduction of greenhouse gas emissions and the company's actions against climate change.

Madera Sostenible, S.A. (MSSA)

Nicaraguan company dedicated to reforestation and sustainable management of teak plantations (Tectona Grandis), committed to the responsible production of plantation wood and the manufacture of high quality products.

History and Evolution

Founded in 2008 as a reforestation project on degraded lands, MSSA is today a vertically integrated forestry-industrial company. It controls the entire production chain: from the nursery and planting, the management of plantations, sawing and drying of the wood, to the manufacture of furniture, prefabricated houses and their direct sale to the consumer. It manages teak forest farms in three nuclei of the country: Rivas, Chinandega and Managua.

Products

- **Sustainable Tropical Woods:** •MSSA adds value to plantation tropical timber species, from seed to finished product, with sustainable practices throughout the production chain.
- **Furniture and Wood Products:** • Through its sister company, Masaya & Co, MSSA offers high-end handcrafted furniture made from 100% sustainable plantation wood, combining traditional techniques with modern designs. It also offers a line of high-quality prefabricated homes, built with plantation teak wood.
- **Commitment to Sustainability** The company converts degraded pastures into productive forest plantations that capture carbon and restore the soil. In addition, each year it donates plants from its nursery to municipalities and communities to support local reforestation.
